

Ranking of leading photovoltaic silicon panel companies

Overview

The National Renewable Energy Laboratory's most recent Solar Industry Update Report, released in December 2024, revealed the world's largest solar panel manufacturers. We've run through them below, in ascending order, based on each manufacturer's solar panel shipments. PVTIME - On 10 June 2025, the PVBL 2025 Global Top 100 Solar Brands rankings and the PVBL 2025 Global Solar Brand Influence Report were unveiled at the 10th Century Photovoltaic Conference in Shanghai, China. During the conference, PVBL announced its annual ranking of the top 20 global silicon. This report, drawing on the latest developments in the 2025 market, analyzes the key characteristics of the top 10 global PV module manufacturers across four dimensions: technological capability, vertical integration, international presence, and performance in the European market. These 12 suppliers are known for their durability, warranty strength, and global reputation. So you can count on them for peace of mind before a high-value purchase. Global headquarters in Seoul and large manufacturing. The 10 photovoltaic module producers leading global output face falling prices, fierce competition, and growing manufacturing overcapacity. 3 Billion in 2024 and is projected to reach USD 419. 4% during the forecast period (2024-2030).
