

# Ranking of wind power installed capacity companies

## Overview

---

China's dominance in the onshore wind turbine market is evident as Chinese manufacturers occupy five of the top six positions in global capacity commissioned for 2024. Goldwind leads the pack with an impressive 18 gigawatts, followed closely by Envision and Windey. To achieve global decarbonisation goals in time, the International Energy Agency says annual wind capacity additions need to increase from around 115 GW in 2023 to 340 GW in 2030. Vestas. As every year, the consulting firms BloombergNEF and Wood Mackenzie have published their respective reports analyzing the global market shares of wind turbine manufacturers. This year, they released their figures just three days apart, allowing us to make a brief comparison between the data. In 2025, the global wind energy sector continues its strong upward trajectory, with total installed capacity surpassing 1,170 GW and over 117 GW added in the past year alone. This surge reflects increased investment in renewables, major changes in turbine efficiency, scalability, and innovation.

- China installs 87 Gigawatt, 72% of new global capacity
- Brazil becomes second largest market and joins top 5 wind power nations

The full report as of 23 April 2025 can be downloaded here as PDF file Bonn (WWEA) – In 2024, new wind turbine installations fell far short of expectations, reaching. For the first time in history, the world's top four wind turbine manufacturers are Chinese: Goldwind, Envision, Mingyang, and Windey. The global wind industry, which installed 117. Showing 10 out of 48 companies.
