

# Remote control photovoltaic panel cleaning system

## Overview

---

Our fully automated system reduces labor hazards and damage to rooftops. Doing nothing is costing you money. It can be installed during construction or retrofitted to an. We offer a fully automated solar panel cleaning system with no moving parts that you can control from your phone. RST NightWash™ keeps your panels clean all the time. Capable of both water and waterless cleaning, this solar robot is remote-controlled and battery-powered. With the potential to improve energy output by 30% through effective dirt removal, these systems are essential for both commercial and residential applications. It effectively cleans panels with installation angles of up to 15 degrees in wet conditions and 20 degrees in dry conditions. With a single full charge, the SolarWalker S1.
