

# Resort uses a 100kWh outdoor telecom cabinet

## Overview

---

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ensuring reliable performance in various environments. AZE's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular design. In this context, the EverExceed Outdoor Integrated Telecom Cabinet plays a vital role as the physical. These systems supply the necessary energy to keep telecom equipment running, even during power outages. Accurate calculation of battery requirements is crucial for optimal performance. For example, at 80% discharge, system efficiency reaches 64%, whereas at 20% discharge, it decreases to 36%. This. Telecom equipment cabinets outdoors support communication infrastructure to ensure continuous operations of communication networks under difficult weather conditions. IP54 protection, 8000. If you ever wondered how telecommunication networks continue to function through heatwaves, rainstorms, or freezing winters, many times the answer is in a robust outdoor telecom cabinet enclosure.
