

Rooftop photovoltaic energy storage leader

Overview

Drawing from the latest 2025 rankings by Solar Power World—adapted for BESS expertise based on hybrid solar-storage portfolios and project pipelines—this list spotlights the top 15 global leaders by 2024 DC kW installed (a key proxy for BESS scale). NextEra Energy, First Solar, and Nextracker are the top three solar companies, based on market cap. NextEra Energy (NEE) NextEra Energy, which describes itself as the "world's largest producer of wind and solar energy," is a leading clean energy provider based in Florida, operating 33 solar. As the world races toward net-zero emissions, Battery Energy Storage Systems (BESS) stand as the linchpin for integrating renewables into stable, resilient grids. Projections indicate that global BESS capacity will exceed 500 GWh by the end of 2025, fueled by surging demand for frequency. This article analyzes the key players in energy storage photovoltaic panel technology, evaluates their market performance, and explores emerging trends driving global adoption.
