

# Russian Telecom charging station

## Overview

---

New filling stations will be required to provide fast-charging docks for e-vehicles, using DC charging stations with capacity of at least 44 kW, beginning on Ma, according to the resolution signed by Prime Minister Mikhail Mishustin. July 30 (Interfax) - The Russian government has approved the new requirements for filling stations located on public roads of federal, regional, inter-municipal and local significance. This is stated in the company's message. MTS will install and put into pilot commercial operation most of the 200 LTE 800 and LTE 1800 base stations by the end of the year. Card Main. Russia EV Charging Infrastructure Market valued at USD 170 million, fueled by rising EV use, government support, and smart charging tech advancements. According to him, thanks to the support measures already taken, there are more than 2 thousand stations for fast charging of electric vehicles. PJSC Moscow United Electric Grid Company (part of the Rosseti group of companies) and Enel X Rus LLC (a subsidiary of the global division of Enel X, which is part of the Enel Group) reached an agreement in the near future to install a charging station for electric vehicles Enel X Pole 3G in the.
