

Russian energy storage container factory is running

Overview

Rosatom 03 February 2026 12:49 The fuel division of Rosatom (the management company is TVEL JSC) has put into pilot operation Russia's first "gigafactory" of energy storage devices, built in the Neman district of the Kaliningrad region. The production capacity of the industrial site is four. Russia is making significant investments in energy storage technologies, demonstrating promising advancements in battery production, energy management systems, and renewable energy integration. July 1 (Interfax) - The Russian government is considering using energy storage systems to cover up to 350 MW of the energy shortage in the southern part of the country, national daily Kommersant reported on Tuesday, citing the minutes from a meeting on this issue that Deputy Prime Minister. Renera LLC, the energy storage business of Russian state nuclear energy corporation Rosatom, has taken a step towards building a "Russian gigafactory" in the country's Kaliningrad Region. The move follows. The nuclear industry integrator company for energy storage systems, RENERA LLC, has opened a new assembly plant for lithium-ion energy storage systems on the territory of the Moscow Polymetals Plant. The opening ceremony of the new production was attended by Natalia Nikipelova, President of TVEL.
