

# Saudi Arabia power plant energy storage project construction

## Overview

---

The Kingdom of Saudi Arabia has officially completed grid connection of its landmark battery energy storage project with the nameplate capacity of 7. The project spans three sites located in the Kingdom's southwestern regions - Najran, Khamis Mushait, and Madaya. Once fully energized, it will become the world's largest operational battery energy storage system (BESS), marking a major milestone in the. Updated Aug: Saudi Arabia has made major advances in its BESS projects as it launches one of Middle East's largest BESS deployments, a 4GWh BESS project. PowerChina Hubei Engineering, a subsidiary of the Power Construction Corporation of China (PowerChina) said last. The 7. The combined capacity of these projects is 4. 9 GWh, with installation costs ranging from USD 73.
