

# Saudi Arabia s largest solar power plant

## Overview

---

The Sakaka Solar Power Plant, located in the Al Jouf province, is the biggest operational solar plant in Saudi Arabia today. It opened in 2021 and marks a major milestone in the country's efforts to shift from relying on oil to using more renewable energy sources like solar power. As global energy trends move towards renewables, even oil-reliant nations such as Saudi Arabia have made strides towards a sustainable future. This article covers the largest solar plant operating now and the future project set to take the top spot, showing how important these plants are for Saudi. The largest photovoltaic (PV) project in the Middle East — the 2. Built by China Energy Engineering Group Co. This study investigates the potential of PV systems to address pressing challenges, including water scarcity and ag ountry's energy sector.
