

Saudi Arabian cement plant uses solar cabinets for fast charging

Overview

French utility group Engie SA (EPA:ENGI) has entered into a power purchase agreement (PPA) with Al Jouf Cement Company (TADAWUL:3091), or AJCC, to develop a 22-MWp solar installation at AJCC's cement plant in Saudi Arabia's Northern Borders Province. Al Jouf Cement Company (AJCC) manufactures cement and supports sustainable industrial development in Saudi Arabia. ENGIE and AJCC have partnered to develop a solar photovoltaic (PV) plant generating 22 megawatt-peak (MWp) of clean power. Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, this ambitious project is set to revolutionize sustainable energy solutions in Saudi Arabia. Saudi Arabia is powering up the future with its Red Sea Project, set to create the world's largest solar-powered energy storage microgrid.

ENERGY STORAGE SYSTEM

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

ENGIE, Al Jouf Cement partner on 22 MW PV project in Saudi Arabia

France-headquartered ENGIE signed a PPA with Al Jouf Cement Company to develop a 22 MW solar PV plant at its Turaif facility in Saudi Arabia. Spanning 420,000 square meters, the plant ...
