

Shelter uninterruptible power supply transformation

Overview

The table below lists the attributes that are applicable to this Element Type, along with the data profile requirements for each attribute and details of when and how each should be used and delivered. SynQor's family of Field-Grade UPS is designed for the extreme environmental and demanding electrical conditions of Military/Avionics applications. SynQor's Military UPS Systems incorporate field proven high efficiency designs and rugged packaging technologies. This UPS will accept a wide range of. Each battery module is equipped with front panel LEDs to provide battery status to include Power On, Charging, and Discharge states. 75" in Length Weighing in at 27 Pounds Designed for Incorporation Into the Powergrid M BPM System.

Shelter uninterruptible power supply transformation

Military Uninterruptible Power Supply (UPS) Systems

Arimon ruggedized military uninterruptible power supply (UPS) systems are specifically designed and manufactured for compliance with military environmental and electrical standards for rugged ...
