

## Overview

---

The 50MW Planet Solar PV project is split in four different locations in Sierra Leone, consisting of a 12MW power plant under construction in BO/Kenema, a 4. A new SLE 830 million (EUR 34mMillion) initiative funded by the European Union will further advance Sierra Leone's vision of access to sustainable energy. The initiative will deliver sustainable, affordable energy and create opportunities for all across the nation. 05 MW (DC) power plant to be constructed in Port Loko, a 25MW power plant under construction in Makoth and a 10MW power plant under. Planet One, in collaboration with Frontier Energy, aims to boost Sierra Leone's solar capacity in the coming years by developing 50 MW of installed capacity. Following the conclusion of COP28 on Decem, in Dubai, various international financial institutions have committed \$52 million to. In a significant step towards clean energy and improved electricity access, a consortium of Development Finance Institutions (DFIs) and renewable energy fund manager Frontier Energy has announced a co-investment of over \$52 million for the Planet Solar project in Sierra Leone. This article explores the realities of the country's power infrastructure and presents solutions.
