

# Silicone waterproof cover for photovoltaic inverter

## Overview

---

**Product Type:** New-style solar panel connector cover that protects the solar connectors from rain and dust. **Durable Material:** The housing is made of high-strength material with strong heat resistance, low flammability, and IP67 waterproof rating. Our mission is to provide the most practical and aesthetic covers available at the lowest price. This means a better value product for our customers. **\*IP67 Waterproof Rating:** Crafted from high-quality silicone, these covers boast an impressive waterproof class of IP67. **[Easy Installation]** High-precision manufacturing ensures precise product dimensions. Quick and easy to install, just put it down, not easy to fall off. **Slocable** is a sustainable energy brand that creates a sustainable future and provides one-stop solutions for solar products. **☐Weather Resistance☐:** Made of silicone material, these connector. XG-6100 MI is a room temperature or temperature curing two-component additive molding silicone potting compound, specially designed for micro PV inverter potting protection, the gel is soft and elastic, low stress, good anti-vibration effect, to provide the device with IP67 or more dustproof and.
