

Solar container communication station distribution box

Overview

The core components may include a solar array, generator (either diesel or propane), a battery system and power inverter, satellite communications plus remote monitoring and management tools. Each container system is custom-built for your site and situation. PV communication boxes are the link between the various network components. Over the past decade, Hakai has developed a reliable and efficient framework that has made our systems into deployable energy solutions for customers worldwide. These systems are. Highjoule HJ-SG-R01 Communication Container Station is used for outdoor large-scale base station sites. This essential device integrates multiple safety features and control mechanisms to ensure efficient power distribution. 380VAC / 100A intelligent AC power distribution box, designed for new base stations, set up a field-level power distribution and equipment management platform, the oil machine, the state of utility power, lightning protection status to achieve remote monitoring, the base station of each power.

Solar container communication station distribution box

Portable Solar Power Containers for Remote Communication Networks

Solar containers provide a complete package of power generation with military-grade robust protection. They are not just solar panels in a box; solar panels, intelligent energy ...

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW/115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

Deployable Container Power Systems , Remote Energy Solutions

The boxes are built on Vancouver Island and our crew comes to your site to take care of the final installation and commissioning. You'll have reliable power and internet connectivity immediately.
