

# Solar container energy storage power supply for computer room

## Overview

---

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power. A solar power container is a self-contained, portable energy generation system housed within a standardized shipping container or custom enclosure. Multiple containers can run in parallel to increase total output capacity. Each container is equipped with Schneider XW+ 6848 NA Inverters, ForeverPure AC and DC Distribution Boxes, and ForeverPure Power Renewable. The shipping container energy storage system represents a leap towards resourcefulness in a world thirsty for sustainable energy storage solutions. Rapid deployment, high efficiency, scalable energy storage, remote monitoring support.
