

# Solar container lithium battery power station in Brisbane

## Overview

---

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverter/chargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, fire safety, and remote monitoring. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. Assembled and tested in Brisbane, Australia. Did you know that your rooftop can generate up to three times more solar. At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities. An off-grid system means your only source of electricity is the energy you generate from your solar array - it's the best way to.

## Solar container lithium battery power station in Brisbane
