

# Solar energy storage cabinet lithium battery cylindrical voltage

## Overview

---

The system's rated voltage ranges from 256V to 716. It pairs efficiently with medium- and high-voltage inverters, high-power industrial UPS, and solar PV inverters, making it naturally suited for industrial energy storage. Inside the battery rack, we integrate structure, electrical components, and management systems. Constructed with long-lasting materials and sophisticated technologies inside. Pick fixed, 2-stage, or 3-stage mode, watch real-time voltage on the LCD, and keep your 12V basics. Works With Common RV Battery Types: Compatible with flooded, AGM, gel, and lithium. The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, 215kWh, 225kWh, 241kWh, etc. Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection.
