

# Solar inverter factory inspection report

## Overview

---

This form allows you to inspect, record issues, and verify the overall status of inverters to ensure optimal functionality. Using a comprehensive solar factory audit checklist is a proven way to evaluate suppliers and protect your. The manufacturing plant is under a periodic factory surveillance programme which is documented in inspection report. Final production, consisting of final assembly, final testing and packaging. 1A range of each other, assuming consistent weather conditions, and all string having same tilt and azimuth angle. ) Confirm inverter's power reading using independent meters. I/we, the responsible person(s) for the design, construction, inspection and testing of the electrical system (as specified by the signature(s)), details of which are described above, have inspected and tested the design and structure with suitable skill and care and confirm that the said words.
