

Solar microinverters in Niger

Overview

The project will help power thousands of homes, schools, businesses, and hospitals in Niger, where most lack access to electricity, and support the government's efforts to generate 30 percent of its power through sustainable sources by 2035. How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively monitors the Niger Solar Microinverter Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help. The Niger Solar Electricity Access Project (NESAP), aimed at enhancing electricity access in rural and peri-urban areas of Niger through solar energy, started in 2017 and has built 15 solar power plants. At the beginning of the Chinese Spring Festival 2023, Sino Soar Hybrid once again brings good news- Our Niger Branch Company has just signed a contract of 9.52MW Solar micro grid in Dosso and Tahoua Provinces of Niger. With 80% of Niger's population living in rural areas, the rate of electrification goes down to less than 1%.
