

# Solar panel size in Zambia power station

## Overview

---

According to the Zambian government, the state-of-the-art plant spans 106 hectares and houses 180,356 solar panels. The Chisamba Solar Power Plant is a 100 megawatt (MW) grid-connected photovoltaic (PV) solar power station in Chisamba District, Central Province, Zambia. As the largest single photovoltaic (PV) project by installed capacity in the country, it will deliver 180 million kWh of clean electricity annually. The Chisamba solar plant is a landmark 25.7 MWp solar facility located approximately 20 kilometers northwest of Lusaka, Zambia.
