

Solar photovoltaic panel installation rack

RS485
Communication between battery and inverters
Baud rate:9600bps

RS485 Interface
Communication between parallel packs or BMS and PC
Baud rate:9600bps

Overview

A solar panel racking system, or solar panel mount, is a structure that safely fixes the solar panels to various surfaces such as rooftops, ground surfaces, or pole installations. Racking systems typically include aluminum or steel components designed to securely hold solar panels. Browse all sorts of solar panel racking options, whether you're looking to mount solar panels on a roof, ground, pole, or RV, our selection includes high-quality, weather-resistant racking systems built to withstand the elements. Factors that go into the selection of a mounting system depend on the type of mounting system you want. Add solar panels to. Solar racking provides a durable foundation for your solar panels.
