

Solar photovoltaic panel tile house

Overview

So, can you install solar panels on a tile roof?

The short answer is yes—but it requires careful planning and the right installation technique to ensure your roof remains intact and your solar system lasts for decades. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more. Tile roofs—especially lightweight cement or clay tiles—are beautiful and durable but also delicate. Both capture sunlight and convert it into electricity for your home, but they look and function quite differently.
