

Solar power generation home system applicable market

Overview

The solar home systems market size is forecast to increase by USD 4.79 Bn in 2032, exhibiting a compound annual growth rate (CAGR) of 17%. The market growth is driven by an increasing continuous advancement in solar technology, which is driving innovation in solar. The global residential solar PV market was valued at USD 94.7% during the forecast period (2025-2034).
