

Solar power generation warranty is replaced every few years

Overview

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for. Solar panel warranties are one of the most important factors to consider when comparing your panel options, and are critical to protecting your five-figure investment. **Linear vs Tiered Performance Warranties: What's the Difference?**

Solar panel degradation is expected, but how it's covered. Below is a simple guide to the three core warranty types and how to read the fine print so you know exactly what is covered. Covers panel failures due to defects, not damage or misuse. Covers roof. While many home appliances typically come with a basic warranty offering free replacements within a specified period, solar panels are protected by various types of warranties that cover a range of potential issues. If your panels crack, delaminate, or otherwise malfunction because of manufacturing problems, the product warranty has your back.
