

Solar street light bracket falls off

Overview

This issue is caused by two factors. If you want to troubleshoot problems in solar street lights, you need to approach each issue with a clear, step-by-step method. Start by understanding how each part works. Let's dive. If a solar street light is not working, troubleshoot in this order: 1) Mode / schedule first — confirm it is in ON / Normal mode (not OFF / TEST) and check any timer / remote schedule. Test the battery voltage with a multimeter to check if it holds a charge above 12 volts.
