

Somalia Hybrid Energy Storage Project

Overview

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The hybrid system will be developed on a 290-hectare site. Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia. The deadline for applications is . The move is part of the Somali Electricity Sector Recovery Project. The project, financed by the World Bank, will be set up in Garowe, Puntland on a 290-hectare site.
