

# Somalia s largest hybrid solar power station

## Overview

---

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The hybrid system will be developed on a 290-hectare site in. Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia. Developed by Kube Energy in partnership with the South West State government and backed by the World Bank's MIGA, the facility will supply clean power to the United Nations and local institutions. The deadline for applications is .
