

South sudan microgrid operation

Overview

For two years, EarthSpark has been working hand-in-hand with SunGate Solar, the longest running solar installation company in South Sudan, to plan and launch the country's first solar-powered community-level microgrid. Some 6,800 miles away from EarthSpark's flagship microgrid in Les Anglais, Haiti is the small rural market town of Wanyjok, South Sudan. This initiative will provide affordable, clean energy to communities that have traditionally relied on diesel generators and firewood—a critical development for a nation with one of the lowest. The Republic of South Sudan is a land-locked country located in East-Central Africa with a population of 11. As part. In September 2022, SunGate Solar and its partners, Humanitarian Grand Challenges, Village Help for South Sudan, Dunn Family Charitable Foundation, EarthSpark International, and PowerGen launched South Sudan's first solar microgrid in the rural market town of Wanyjok combining a solar array (55. South Sudan faces significant poverty-related challenges, with more than 82% of the population living in multidimensional poverty. This includes limited access to basic services, such as clean water, health care, education and adequate nutrition. It is also, however, the least electrified. This. The solar minigrids will combat hunger and encourage sustainable farming practices.
