

Specifications of Off-Grid Solar-Powered Containerized Automated Products for Railway Stations

Overview

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure. The Off Grid Container also transports the solar PV panels and mountings, the only part of the product which has to be assembled at the customer's site. These. LZY's photovoltaic power plant is designed to maximize ease of operation. It is based on a 10 - 40 foot shipping container. The most cost-effective off/grid power solutions for your remote projects. Our foldable solar containers combine advanced photovoltaic technology with modular container design. CE certified UL certified Photovoltaic Array Inverter 3kVA (6kW peak, 2.
