

# St Johns Compression Energy Storage Project

## Overview

---

The ANR Pipeline Company (ANR), a subsidiary of TC Energy, is preparing to replace natural gas compressor facilities at its St. John Compressor Station located in Lake. This compressor station is officially in-service in Indiana, helping ensure the U. Midwest is equipped to meet future energy demands, from home heating to next-generation industry. There are various types of this technology including adiabatic. Repsol's Saint John LNG import facility in New Brunswick, Canada has selected Galileo Technologies to provide its boil-off gas compression and reliquefaction solutions.
