

Storage project in Mauritania

Overview

Mauritania has entered into a 0 million Power Purchase Agreement (PPA) with Ewa Green Energy to develop a cutting-edge hybrid power plant featuring 160MW of solar energy, 60MW of wind power, and 370MWh of battery storage, as reported by Africazine. With the technical support from the Energy Sector Management Assistance Program (ESMAP) Energy Storage Program and the Korea-World Bank Partnership Facility (KWPF), as well as financial investment support from the World Bank (IDA), the Mauritanian National Power Utility - SOMELEC - is issuing a. Part of the initiative is the construction of Mauritania's first utility-scale battery energy storage system. The facility will combine 160 MW of solar and 60 MW of wind capacity, supported by a 370-megawatt-hour (MWh) energy. The World Bank approved the "DREAM" project, a major initiative aimed at supporting the development of energy resources and the mineral sector in Mauritania. Featuring an impressive 160. IGE, developer of Mauritania's largest renewable energy plant to date, has signed a \$300m deal with Nouakchott. African Energy reports on the groundbreaking deal and its low profile but successful developer.
