

Surge-proof network cabinets for tunnels Central and Eastern Europe type

Overview

This system is known as STES (Electrical Traction Disconnection and Earthing System for Tunnel Safety) and allows the earthing of the entire tunnel to be controlled - remotely or via an on-site operating panel - to facilitate rescue operators in the necessary operations. Fire rated Junction boxes, enclosures for tunnel's, road sunnel and mayor fire risk places. Traffic tunnels need to available around the clock. Closing the tunnel or the failure of a rescue system due. With the aim of ensuring an adequate level of safety in railway tunnels, the law requires that a system be installed that, in the presence of an incident in a tunnel, allows the disconnection of the overhead contact line (an overhead system used to transmit electrical energy, even at a distance. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform. SOMI NETWORKS - is an european distributor and manufacturer of active fiber optic equipment, passive fiber optic network components, 19" cabinets and accesories.
