

Technical Support for 50kWh Outdoor Energy Storage Units for Power Plants

Overview

SUNSYS HES L is a modular outdoor energy storage system designed for both on-grid and off-grid applications. Designed to meet the growing demand for efficient and reliable energy storage, this system combines high performance with a compact, integrated design to support a wide range of commercial and industrial applications. Discover the MEGATRON Series - 50 to 200kW Battery Energy Storage Systems (BESS) tailored for commercial and industrial applications. This system uses advanced and safe lithium iron phosphate (LiFePO₄) battery technology to provide you with reliable, efficient and long-lasting energy management. All outdoor units must meet IP55 (dust/water resistance) minimum. Thermal Management Systems Lithium-ion batteries lose 30% efficiency at -10°C. Solutions include: A 50MW solar plant. Scalable outdoor energy storage system from 50 kVA / 186 kWh to 550 kVA / 1116 kWh Extreme scalability High safety standards Fast and safe installation Combines the best technologies SUNSYS HES L integrates advanced power conversion and LFP battery technologies to create a winning formula. Individual pricing for large scale projects and wholesale demands is available. The battery cabinet has 2*50KWH (51).

Technical Support for 50kWh Outdoor Energy Storage Units for Pow

50 to 200kW Battery Energy Storage Systems

Discover the MEGATRON Series - 50 to 200kW Battery Energy Storage Systems (BESS) tailored for commercial and industrial applications. These systems are install-ready and cost-effective, offering ...
