1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

Overview

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation. Rather, when you pay your taxes, you can count your solar use. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. It's a very small percentage of rooftop solar companies, but it would be a lie to pretend there aren't any and there's nothing to worry about. This is only useful if you are enrolled or your utility offers a buyback program. These scams start with an unexpected phone call, message on social, or even an in-person visit.
