

The outdoor communication cabinet of the battery swapping station is 1200mm deep

Overview

Dimension: 2100900900mm, cabinet (HWD) with various installation ways available, including wall hanging and floor mounting. Power Platform: A unified system allowing AC and DC input/output for adapting to various power source needs. The ORC houses DC power, batteries and equipment. Marine grade aluminium construction and fully sealed technology guarantee a long maintenance-free life for the cabinet and complete protection for equipment inside. The e is a. Offering rapid battery swaps, robust power management, and compatibility with various electric vehicles, these advanced battery swap systems feature IP55-rated protection, intelligent BMS with multiple safety layers, and seamless communication modes. Relying on intelligent battery. AZE's Outdoor Battery Cabinet with Air Conditioner (with sandwich panel double-wall structure design) is designed to house a variety of batteries, they provide protection from vandalism, dust, rain, snow and dripping water in wireless communication base station including the new generation of 4G. The Outdoor Base Station Cabinet is a robust and weatherproof telecom cabinet engineered to house communication, power, and battery equipment in outdoor environments. Designed for long-term reliability, it provides a controlled and secure enclosure that ensures stable operation for base stations. The series of outdoor communication energy cabinets, HJ-SG-D02 by Huijue Group, is a powerhouse designed to provide reliable energy supplies and backup systems in a wide array of outdoor communications applications.

The outdoor communication cabinet of the battery swapping station

 LFP 48V 100Ah

Communication backup power solutions

The outdoor special battery cabinet has a built-in battery charger and an all-float conversion and temperature compensation, allowing the system to expand the power-ready time at will.
