

The photovoltaic panel installation caused cracks in the wall

 LFP 12V 100Ah

Overview

When solar panels crack, immediate action is essential to prevent further damage and ensure continued efficiency. Consider repair or replacement, 3. Assessment involves determining the extent of the cracks and their. The reasons for delamination can be different: bad workmanship, poor manufacturing, high temperatures. Delamination often takes place in tropical climates, and semi-flex panels are especially vulnerable.
