## Overview

---

The second-generation residential solar inverter was released in April 2020, only two years after the first version. The SUN2000-L1 series ranges from 2kW to 6kW and features 'dual MPPTs' with a wide operating voltage range of 120V to 600V. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It builds a product ecosystem centered on solar inverters, charge controllers, and energy. Market Leadership with Proven Technology: Huawei maintains its position as the world's #1 solar inverter manufacturer for six consecutive years, commanding 29% of the global market through superior AI-powered optimization, 99% peak efficiency, and extensive R&D investment representing 54. While panels capture sunlight, Huawei's FusionSolar inverters convert up to 99% of that energy into usable electricity - outperforming 92% of competitors in 2024 field tests. Wait, no - correction: SMA and SolarEdge now offer 98.

## The predecessor of Huawei s photovoltaic inverter

### Why Huawei Photovoltaic Inverters Are Rewriting the Solar Energy

Picture this: A tech giant known for smartphones and 5G suddenly becomes the world's top-selling photovoltaic inverter manufacturer. Huawei's journey from telecom dominator to solar maestro reads ...
