

Three-phase inverter cabinet for hospital use

Overview

Our custom-designed control cabinet integrates a 3-phase IT isolation transformer, insulation monitoring device and protection circuitry to maintain continuous power supply while detecting insulation faults in real time. Our OSHPD / HCAI certified cabinets will protect your inverter from seismic activity when mother nature calls. With full capabilities of the Power Wave 1 series, this emergency lighting inverter will keep your emergency lighting on when things get shaky. This device meets the requirements of ensuring patient safety in environments. The IOTA IIS3P Series Central Inverter Systems are UL Listed three-phase sine wave output inverters designed to supply 4.8kVA to 50kVA of emergency power to the connected load. IIS3P Inverters will operate the emergency load at full brightness with a transfer speed of 2 milliseconds. By continuing, I agree to the and authorize you to charge my payment method at the prices, frequency and dates listed on this page until my order is fulfilled or I cancel, if permitted.
