

# Tile roof photovoltaic bracket base

## Overview

---

Our tile roof solar mounting system is designed for secure and weather-resistant installation of solar panels on various types of tile roofs, including flat, curved, and Spanish tiles. It ensures a strong structural hold while preserving roof integrity. Simply remove the tile and replace it with the Tile Replacement Mount. Works with standard curved and flat tile roofs, and standard rail-based racking systems. Flashed at. The L-shaped waterproof hook connects to the wooden board beneath the tiles, without directly damaging the tiles or affecting their waterproofing, thus preventing roof aging and leakage. The IronRidge All Tile Hook has high wind and snow load. Designed to accommodate solar modules of all sizes on sloped tile roofs, these brackets encompass several standard components such as aluminum rail profiles, tile hooks. A successful installation of solar panels depends on a strong, 100% code-compliant, waterproof attachment to the roof. That's why designers and installers throughout North America have made Quick Mount PV their #1 mounting choice for rooftop solar energy installation since 2007. The all aluminum alloy construction ensures a lightweight yet sturdy design, with an anodized surface that offers high corrosion resistance.
