

# Tonga Wind and Solar Energy Storage Project

## Overview

---

The Tonga Integrated Energy Storage Power Station represents a groundbreaking shift in how island nations can achieve energy security. As climate change accelerates, Pacific countries like Tonga face dual challenges: reducing diesel dependency and integrating renewable energy sources. Tonga Power Limited is currently undertaking renewable energy projects, network upgrade projects as well as Battery Energy Storage projects which all contribute to ensuring Tonga Power provides power that is sustainable, reliable and safe for the people of Tonga. This project. Part of Polynesia, in the Pacific Ocean, 700km south of Fiji, 1200km north of New Zealand. 107,000, 74% residing in Tongatapu (main island). One of three most vulnerable countries in the world (due to geographical location). In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation.
