

# Total battery energy storage capacity

## Overview

---

6 GW and 11 GWh of new battery energy storage capacity began commercial operations last year. This brought total operational capacity to 13,888 MW and total energy capacity to 22,853 MWh. Buildout accelerated throughout the year, with Q3 2025 delivering over 2 GW of new capacity. Strong growth occurred for utility-scale battery projects, behind-the-meter batteries, mini-grids and solar home systems for. Texas begins 2026 with 13. Source: ERCOT

- Download data Notes: Batteries are considered commercially. Battery storage plays a critical role in the transition to renewable energy and keeping the lights on The American Clean Power Association reported that the United States added a record 1,602-MW of battery storage capacity in the first quarter of 2025, equivalent to the energy generation capacity. By 2030, TotalEnergies aims to develop 5 to 7 GW of battery storage capacity, mainly in Europe and the United States.

## Total battery energy storage capacity

---

### 2025 US energy storage installations surpassed 2024 capacity

According to the Q4 2025 US Energy Storage Monitor from Wood Mackenzie and ACP, 2025 energy storage installations surpassed 2024 capacity.

### Grid-Scale Battery Storage: Frequently Asked Questions

Battery storage is a technology that enables power system operators and utilities to store energy for later use.

[Get Price](#)

-  **Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 150% Peak Output Power
  - 2 MPP Trackers, 150% DC Input Oversizing
  - Max. PV Input Current 15A, Compatible with High Power Modules
-  **Intelligent Simple O&M**
  - IP65 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
-  **Flexible Abundant Configuration**
  - Plug & Play, EPS Switching Under 30ms
  - Compatible with Lead-acid and Lithium Batteries
  - Max. 6 Units Inverters Parallel
  - AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

### U.S. adds record amount of battery energy storage in first three ...

The American Clean Power Association reported that the United States added a record 1,602-MW of battery storage capacity in the first quarter of 2025,

equivalent to the energy generation ...
