

Trina 490 photovoltaic panel size

Overview

41 m² (approx; 1102×2187 mm). Anti-reflective coating: ** In house Glass coating**. This Efficiency is lab-rated; real-world yield depends on orientation, temperature, and inverter matching. Excellent size and lightness make the panel easy to handle and install, and ensures that panels are robust enough for larger-scale commercial installation. Founded in 1997, Trina Solar's solar panel technology has set a world record or two (or 26). With local presence around the globe, Trina Solar is able to provide exceptional service to each customer in each market and deliver our innovative, reliable products with the backing of Trina as a strong. Product is no longer manufactured. Solar Panel Series Vertex TSM-DE18M (II) 490-515W. Detailed profile including pictures, certification details and manufacturer PDF . Based on the 210mm large-size silicon wafer and monocrystalline PERC cell, the Vertex comes with several innovative design features allowing high power output of more than 510W+. Excellent temperature coefficient and low irradiation performance brings the greater power. Furthermore, benefit from. See the table below for available information we have about Trina Solar Co Ltd TSM-490-NEG18R. We have an image for Trina Solar. High Power Output: The Trina Solar 470-490 Watt modules have an impressive power output, making them one of the highest performing modules currently available in the market.

Trina 490 photovoltaic panel size

Trina Solar , Vertex TSM-DE18M (II) 490-515W , Solar Panel ...

Trina Solar Co., Ltd. Solar Panel Series Vertex TSM-DE18M (II) 490-515W. Detailed profile including pictures, certification details and manufacturer PDF.
