

UK container generator installation

Overview

Kent CT12 5BF, UK Tel: +44 (0)1843 255000 Fax: +44 (0)1843 255902 Email: cpg. com This manual is intended as a useful guide and to form the basis for generating set installation design. A containerised generator is a power generator that is packaged and delivered as a complete unit within a container. With noise reduction features and customisable options, we ensure your site gets the power it needs with minimal disruption. 5MW for Diesel, LPG, CHP, and NG Gas applications. For more information please request a.

UK container generator installation

Containerised Generators, Standby Diesel Generator Containers UK

We build each container from scratch with special louvres for free flow ventilation, which reduces the external sound levels and maintains the optimum diesel engine efficiency.

Application and Installation Guide for Generator Sets

The generator can be placed directly on a level, concrete floor, but where a permanent installation is intended, it is recommended that the unit is placed on

two raised longitudinal plinths.
