

# Waterproof energy storage cabinet for cement plants

## Overview

---

This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated plug-and-play. This 100KW 215KWH C&I BESS cabinet adopts an integrated design, integrating battery cells, BMS, PCS, fire protection system, power distribution system, thermal management system, and energy management system into standardized outdoor cabinets, forming an integrated plug-and-play. Turnkey industrial energy storage solutions integrating BESS, solar PV and waste heat power to help cement plants and heavy industry reduce energy cost and ensure stable production. What is an Industrial Energy Storage System?

An Industrial Energy Storage System is a smart energy management. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. It has the characteristics of high energy density, high charging and discharging power. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration, peak shaving, and backup power.
