

# What are the photovoltaic panel layout plug-ins

## Overview

---

Solar panel layout tools are software applications that help you plan and design your solar energy system. CAD is a powerful plugin for AutoCAD and BricsCAD for detailed engineering and construction-ready PV designs of C&I and Utility-Scale projects, maximizing efficiency, precision and system performance. Including floating-, agri- and carport PV. Reduce engineering time from months to just a. Solar design software is the secret weapon for solar professionals who want to create standout designs, lower operational costs, and stay ahead of industry regulations.
