

What does solar power insurance cover

Overview

Solar panel insurance is a type of coverage specifically designed to protect solar panels installed on your property. This type of insurance helps cover the costs of repairing or replacing your solar panels if they are damaged or destroyed by covered perils, such as storms, fire. Ownership structure creates vastly different responsibilities: Owned systems require you to ensure adequate coverage limits and handle all claims, while leased systems may leave coverage gaps for roof damage, electrical issues, and liability claims despite the leasing company's insurance. Solar panels can increase your insurance premium costs if the system makes the replacement value of your home exceed your coverage limit. Increasing your coverage limit to include the value of your solar panels could increase your. Adding solar panels to your home is a major investment, and protecting that system starts with understanding solar panel insurance.
