

# What is seraphim photovoltaic panel

## Overview

---

Seraphim is a Chinese manufacturer of solar panels with a global presence, offering environmental solar energy solutions for both commercial and residential customers. The company's products aren't very popular in the Western hemisphere, but are trusted by many people in Australia, South America, and Asia. This research has resulted in over 100 technical patents. They offer high-performing monofacial and bifacial panels with up to 21% module efficiencies and a power output of over 400W. In 2013, Seraphim solar panels became the first to pass the TUV SUD Thresher Test. So, does this place Seraphim up there. Company Profile: Seraphim, established in 2011 in China, quickly gained recognition as a Tier 1 solar panel manufacturer. Their production capacity was approximately 5 gigawatts at.
