

What is the best way to clean rooftop photovoltaic panels

Overview

Use safe tools like a soft brush, sponge, or a hose with gentle spray when cleaning rooftop solar panels. Mild soap mixed with water or manufacturer-recommended solutions work best for removing dirt. Dust, dirt, pollen, bird droppings, and other debris can reduce energy output by 15–25%, according to the National Renewable Energy Laboratory. This guide shows you how to clean solar panels safely and effectively—backed by expert tips and the latest best practices for DIY and professional options.
