

Where are the factories with the most photovoltaic panels

Overview

Most of the world's largest solar panel manufacturers are based in China, with six out of the top seven manufacturers being Chinese companies. Data from the National Renewable Energy Laboratory's 2023 Spring Report. Discover which companies produce the highest number of solar panels around the world. What kind of home do you live in?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees - of whom 1,500 work in the firm's eight research and development. The world's top 10 solar photovoltaic (PV) module manufacturers shipped a record 500 gigawatts (GW) of modules in 2024, nearly doubling the previous year's volume, according to Wood Mackenzie's new Global Solar Module Manufacturer Rankings 2025 report. The list includes free-of-charge updates and additional entries for one year, sent out via.
