

# Where do the profits of photovoltaic panels come from

**2MW / 5MWh**  
**Customizable**

## Overview

---

In the solar photovoltaic industry, 1. securing incentives and subsidies, 3. The burgeoning demand for renewable energy sources has propelled this. Electricity generation produces a quarter of U. greenhouse gas emissions that drive climate change. The electric grid also is highly vulnerable to climate change effects, such as more frequent and severe droughts, hurricanes and other extreme weather events. Coupled with. Solar companies leverage a diverse range of revenue streams, each contributing significantly to their bottom line. New businesses may start with one and expand their offerings as time passes.
